

KEYS to TOTAL HEALING – Weekend Seminar **Friday evening through Sunday**

Purpose and Intention

- * to introduce and develop an understanding of the pillar concepts of Total Biology;
- * the workshop will deepen the material given in the one-day “jumpstart your healing” workshop and the introductory evening seminars;
- * to open the participant to his own healing experience through greater knowledge, exposure to case examples, and examples from the other participants.

The workshop is intended for

- * anyone with a thirst to be a participant in their own healing from disease or unpleasant patterns in their life or for releasing emotional blocks or for health promotion and prevention.
- * anyone in the health and healing profession seeking an in-depth understanding of the root causes of poor health and disease and simple ways to intervene with clients.
- * anyone concerned for a loved one and seeking ways to support them.
- * any parent concerned for their child with disease or behavioural or learning problem.
- * anyone simply curious about life and fascinated to learn how our biology works.

Format

Several of the key concepts of this powerful healing knowledge will be presented along with a number of case studies of cancers and other diseases.

Several question- answer periods will bring up examples from the participants and permit some interactive learning and tailor the workshop to participants’ interests.

*****NOTE – Prerequisite:** Prior attendance at an evening introductory seminar or the one-day ‘jumpstart your healing’ workshop.
